## Hand Held Metal Detector

### Overview

KMDH06 is a high performance Hand - Held metal detector that is primarily used for weapon detection. The system is Capable of detecting a wide range of threat objects composed of magnetic, non-magnetic metals and mixed alloys, and has been designed to meet the the needs of airports, law enforcement, public events, correctional facilities and custom facilities.

Exceptional immunity to environmental interferences makes it easy to use even when electrical noise is encountered. The system allows a high level of discrimination between significant metal masses and personal metal effects. Kepler owns all of the intellegent property rights and we have an expertised engineering team, which enables us to provide relaible and quality services worldwide.

## Hand Held Metal Detector

### Equipment Specification

Dimension : 410mm (L) X 85mm (W)

X45mm (H)

Operational Frequency : 40 KHz

Alarm Sound : >75dB

IP Rating : IP31

Housing Material : ABS

Power : Standard 9V Battery

Operating Voltage : 7V - 9V

Operating Current : < 50 mA

Battery Recharging Time : 4 Hours
